EDUCATION

Pandit Deendayal Energy University (PDEU)

B.Tech. in Information and Communication Technology (CGPA: 7.78/10)

2023 – 2027

Gandhinagar, Gujarat

TECHNICAL SKILLS

Languages : Java, Python, JavaScript, C

Frameworks & Software Development : React, Node.js, Express.js, FastAPI, REST APIs, Git, Postman

AI & LLM : RAG, LangChain, Pinecone, Prompt Engineering, LLM-based Retrieval Systems

Databases : PostgreSQL, MongoDB, MySQL

Cloud & DevOps : AWS (EC2, S3, EKS, IAM, Lambda, CloudWatch), Docker, Kubernetes, Terraform, Jenkins, CI/CD

Core CS : Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Linux

EXPERIENCE

Full Stack Developer Intern

May 2026 – Jun 2026

iTech Brains

Ahmedabad

- Built and delivered a **MERN-based e-commerce platform** with **10+ responsive pages** and **10+ REST APIs** supporting authentication, product management, categories, reviews, and cart workflows
- Implemented **JWT authentication, protected routes, server-side validation, and authorization checks**, resolving unauthorized-access issues across login and product-management workflows
- Collaborated in an **Agile/Git-based workflow**, contributing to code reviews, testing, debugging, and iterative feature delivery

Software Development Engineer Intern

Feb 2026 – Apr 2026

InstaPrepAI

Mumbai (Remote)

- Independently redesigned a semantic retrieval pipeline for an AI chatbot using **Pinecone metadata filtering**, narrowing candidates before vector search and reducing response time from ~4–5s to ~2–3s
- Designed and implemented a **live leaderboard system** across **3 categories**, integrating **4 backend APIs** with deduplication and ranking logic to eliminate manual winner updates
- Identified backend bottlenecks using **CloudWatch logs** and improved **IAM** access policies across EC2 and S3 for more reliable deployments

PROJECTS

End-to-End DevSecOps Pipeline | *Jenkins, Docker, Kubernetes, AWS EKS, Terraform, Argo CD*

GitHub

- Designed an **automated software delivery pipeline** with **11 stages** and **3 security checks**, automatically detecting vulnerable builds before deployment
- Implemented a **GitOps-based deployment workflow** that reduced a release process requiring **7+ manual steps** to a single **git push**, enabling traceability and rollback
- Provisioned AWS infrastructure using **modular Terraform** components and deployed replicated Kubernetes workloads across multiple availability zones for resilience and rolling updates
- Configured **Jenkins, Argo CD, and Kubernetes** to automate build, security validation, deployment, and rollback workflows

NyayaSaar – AI Court Order Summarization | *React, FastAPI, PostgreSQL, LangChain, Pinecone*

GitHub

- Designed a **RAG-based document intelligence system** that converts court orders into a reusable knowledge base, retrieving relevant sections instead of repeatedly processing complete **100+ page** documents
- Engineered a **modular document-processing pipeline** using **LangChain and Pinecone**, reducing legal-document analysis time by **70–80%** while enabling independent scaling
- Integrated **PostgreSQL** for structured application data with **vector indexing** for semantic retrieval, separating transactional workloads from document-search operations
- Built the application using **React and FastAPI**, developing REST endpoints for document upload, processing, retrieval, AI-powered summarization, and question-answering workflows

ACHIEVEMENTS & LEADERSHIP

- **Adobe India Hackathon**: Advanced to **national-level Round 2**, ranking in the **top 13%** among **26,000+ shortlisted participants** from **2,00,000+ registrations**
- **Google Gemini India Hackathon**: Ranked among the **Top 5 teams out of 150 teams** shortlisted in PDEU's internal round for the **national-level hackathon**, placing in the **top 3.3%**
- **Vice Chair, IEEE Computer Society SBC (PDEU)**: Led a **40+ member** technical chapter and organized **8+ technical events, workshops, and hackathons** engaging **200+ students**
- **Campus Ambassador, Cisco (PDEU)**: Represented Cisco on campus, driving student engagement, promoting technical programs, and coordinating outreach initiatives
